

# MES EARLY LEARNING PROGRAM: 3 AND 4 YEAR OLDS

Formerly known as preschool, our program is changing under a new mandate from Alberta Education.

Students will be admitted into the program based on needs identified through a screening process.

Programming will support children by providing hands-on, play based, developmentally appropriate activities where children can engage with peers and develop in areas that include:

- social/emotional skills,
- intellectual/cognitive skills,
- physical/motor skill and
- speech/language.

Students must be screened prior to registration.

Please fill out the form linked below to get on our screening list. We will call you to set up the screening appointment.
